Randall Kester was appointed by Smith to fill the vacancy left by the death of Justice Walter Tooze. Kester later resigned.

Holmes said Friday he did not protest the appointment of Kester, but added that other Democratic leaders insisted the office should have been filled by the new administration.

Hatfield said he will not make an effort to remove any Holmes appointees. "I may let it be known that I would appreciate some resignations but we are not going to have a donnybrook about it," the governor-elect said.

"I can learn to live with anyone. We will not have any impolite firings," Hatfield added.

Hatfield said he has received five resignations so far, including Howard Morgan, public utility commissioner; James Johnson, director of the motor vehicles department; John Richardson, head of the department of finance and administration; Robert Steward, director of the state agriculture department; and John Travis,

New Fuss Raised Over Jet Trails

WASHINGTON (UPI)—The Air Force is long since resigned to the fuss about noise from its jets. Now comes Palm Springs, Calif., with a new complaint—that jet trails overhead are so thick they are beginning to blot out the sun.

Jimmy Cooper, manager of the Palm Springs Chamber of Commerce, outlined this "most serious and urgent problem" in a telegram to Rep. D. S. (Judge) Saund (D-Calif.), who has asked the Air Force what can be done.

"As you know, Cooper wired Saund, "our entire economy is dependent upon the tourist trade, which is predicated on our bright sunshine and warm climate. Recently our sky has resembled a mob of exuberant sky riders performing an aerial circus.

The "contrails" are not disappearing but are breaking down into a haze and creating a cloud-

like appearance in the sky.

"With the unlimited expanse of barren, uninhabited land in the West, does such activity have to be centered over a resort area, which is offering the visitor cloudless skies and unlimited sunshine?"

The Air Force, so far, is flabbergasted. No doubt in time it will recover its aplomb sufficiently to give Saund the usual answer to all congressional inquiries—

that the matter will be investigated.

The Air Force figures its jets couldn't blot out the sun short of a wing to wing mass flight like the European bombing raids of World War II. If anything like that is going on out of March Air Force Base, at Riverside, Calif., the nearest jet base to Palm Springs, Air Force officials here want to know all about it.

Russians Claim Flank Exposed

MOSCOW (UPI)—Russia said today that the projected U.S.-Iranian military pact exposes the Soviet Union's southern frontier to "direct danger."

"The Communist Party newspaper Pravda said Russia could not remain indifferent to the situation.

The newspaper quoted what it said were fact that demonstrate that "certain circles in Iran, following the lead of external sources, are aiming at a deterioration of Soviet-Iranian relations and the sowing of mistrust between the two states."
